About Texcot Sourcing

“Texcot Sourcing” is a forward-thinking apparel buying and sourcing office based in Dhaka, Bangladesh, the heart of the world’s second-largest garment manufacturing hub.

We act as a strategic partner to global fashion retailers, importers, wholesalers, and private-label brands, offering end-to-end sourcing solutions that blend cost efficiency, innovation, sustainability, and compliance.

Our business philosophy centers around three principles:

- *Integrity in sourcing*
- *Excellence in execution*
- *Sustainability in every decision*

With 20+ years of leadership experience in textile sourcing and merchandising, our management team brings a wealth of knowledge in international apparel business dynamics, supply chain management, and product development innovation.

Message from the Founder & Managing Director

The global apparel business is rapidly evolving. Buyers today demand more than just low prices, they demand transparency, quality, speed and sustainability.

“Texcot Sourcing” was founded to bridge that gap to deliver a new kind of sourcing service where trust, innovation, and ethics come first.

My goal is to position Bangladesh not just as a production destination, but as a partner in innovation for global fashion.

Together with our clients and factory partners, we’re building a future where apparel manufacturing is responsible, transparent and future-ready.

Founder & Managing Director

Md. Kamrul Hasan

Texcot Sourcing

Our Mission

To deliver trust-driven apparel sourcing solutions by combining product innovation, supply chain expertise, and social responsibility, ensuring consistent value and quality for our global clients.

Our Vision

To establish Texcot Sourcing as one of South Asia's most respected and reliable apparel sourcing companies by 2030 setting benchmarks in sustainability, technology integration, and ethical business practices.

Our Core Principles & Values

Integrity

We maintain honesty and transparency in every interaction.

Excellence

We continuously push to exceed client expectations.

Customer Success

Our clients' success defines our own.

Sustainability

We prioritize environmental responsibility and fair labor.

Innovation

We embrace technology to simplify sourcing and improve efficiency.

Accountability

We own our promises and deliver on commitments.

Key Markets & Clients

Our clients include a mix of international brands, retailers, importers, and private labels.

Markets

Europe, UK, USA,
Canada, Australia,
New Zaland,
Latin America

Major Buyers

Mid to premium
retailers,
E-commerce
brands,
Private Labels,
Workwear
Importers.

Target Expansion

Latin America,
Europe, UK and
Noth America
Canada, USA).

Our Services

We manage the entire Product sourcing lifecycle, from design inspiration to delivery.

A. Product Development

- Market & trend analysis (fabric, colors, silhouettes)
- CAD design and mood board preparation
- Fabric and trims sourcing
- Quick sampling (7–10 days)
- Technical packs, spec sheets, and BOM creation

B. Vendor Sourcing & Compliance

- Selection of certified factories based on product type
- Compliance verification (BSCI, WRAP, Sedex, ISO)
- Technical & social audit evaluations
- Long-term partnership programs with vendors

C. Costing & Negotiation

- Transparent cost breakdowns
- Price benchmarking by region and category
- FOB, CNF, and DDP support

D. Production Management

- T&A planning and progress tracking
- Inline production reports (Picture)
- Capacity planning and bottleneck management

E. Quality Control

- Dedicated QA team at factory level
- Inline, midline, and final inspection (AQL 2.5/4.0)
- Third-party lab testing (SGS, ITS, BV)

F. Logistics & Documentation

- Coordination with freight forwarders
- Export documentation (CI, PL, BL, LC, GSP)

G. Sustainability & CSR

- Use of organic, recycled, and BCI cotton
- Partnerships with LEED-certified factories
- Worker safety and community welfare initiatives

Quality Control Framework

We apply a 4-step QA system to guarantee consistent quality :

1. Pre-Production: Fabric inspection, lab testing, PP approval.
2. Inline: Random checks during sewing.
3. Final Inspection: 100% measurement verification, packaging check.
4. Post-Shipment Review: Buyer feedback, CAP (Corrective Action Plan).

┌ All inspections follow AQL 2.5/4.0 or buyer-specific standards. ┐

Our Manufacturing Network

We are able to manufacture the products ourselves through our sister concerns (**Sohrab Apparels, MF Apparels & Sikder Accessories**).

Texcot Sourcing partners with over 100+ audited factories strategically located in Gazipur, Savar, Narayanganj, and Chittagong each specializing in different product categories.

Factory Certifications

- BSCI
- WRAP
- SEDEX
- OEKO-TEX Standard 100
- ISO 9001
- Accord/Alliance Safety Audit

Include a small Bangladesh Map marking your major supplier zones (Gazipur, Narayanganj, Savar, Chittagong).

Future Growth Strategy (2025–2030)

- Strengthen EU & North American buyer base.
- Build “Texcot Sustainable Line” for eco-friendly collections.
- Establish regional liaison offices (Latin America, Europe, USA & UK).
- Invest in PLM & ERP digital systems for real-time management.
- Develop an in-house design & R&D studio massively for trend-driven collections.

Key Strengths & Competitive Advantages

- Strong Supplier Network- Over 40 audited factories with capacity across knit, woven, denim & outerwear.
- Quality & Compliance Focus- Dedicated QA team ensuring AQL standard inspections at every stage.
- Sustainability Commitment-Promoting organic cotton, recycled polyester, water-saving dyeing, and zero-discharge factories.
- Professional Team- Experienced merchandisers, technical and quality experts with 20+ years in the RMG sector.
- On-Time Delivery & Transparency- Real-time order tracking and milestone reporting.
- Cost Competitiveness- Lean processes and strategic sourcing ensure best price & value.
- Innovation- Design studio support for product development & trend analysis.

Sustainability & Ethical Commitment

We believe fashion should be responsible.

Show our forward-thinking

- ❑ Use of Sustainable Fabrics (Organic Cotton, Recycled Polyester)
- ❑ Partnerships with Green Factories
- ❑ Carbon Footprint Reduction Initiatives
- ❑ Digital Product Development (3D Sampling, Virtual Fitting)

Our sustainability vision includes

- Eco Fabrics : Organic cotton, recycled polyester, bamboo blends.
- Green Production : Partnering with solar- and ETP-equipped factories.
- Waste Reduction : Smart cutting, recycling, and fabric reuse.
- Social Welfare : Training, safety audits, healthcare for workers.
- Transparency : Open communication on supply chain traceability.

Technology & Digital Sourcing Tools

- 3D Sampling & Digital Fit Approval (CLO, Browzwear)
- ERP-based T&A Tracking
- Virtual Inspection System (photo/video feed for remote clients)
- Online Client Portal for order updates and file sharing.
